

User Manual

The Cache Buster modules is intended to be used for administrators and developers with administration access rights in Episerver.

The Cache Buster module could be helpful for both developers and administrators who understand how cache is used; for instance, to invalidate Content Output Cache in EPiServer.

This administration tool does the following:

- List all cache keys currently in use.

Cache Buster

See all cache keys and give anyone a way to explicitly remove them.

Key Name

Key	Type	Value	Action
EP:PropertyDefinition:Instance:64	EPiServer.DataAbstraction.PropertyDefinition	MetaDescription	Remove
EPIAncestor:ContentAssetAware28	System.Collections.Generic.List`1[EPiServer.Core.ContentReference]		Remove
PluginDescriptor.EPiServer.Util.DelayedPublishJob	EPiServer.Plugin.PluginDescriptor		Remove
EP:PropertyDefinition:Instance:94	EPiServer.DataAbstraction.PropertyDefinition	NewsList	Remove
EPPageData:35	EPiServer.Core.ContentFolder		Remove
PluginDescriptor.EPiServer.SpecializedProperties.PropertyDoubleList	EPiServer.Plugin.PluginDescriptor		Remove
EP:InstanceContentType7	EPiServer.DataAbstraction.BlockType	CustomizedSearchBlock	Remove
EPChildrenData:32	System.Collections.ObjectModel.ReadOnlyCollection`1[EPiServer.Core.GetChildrenReferenceResult]		Remove
PluginDescriptor.EPiServer.SpecializedProperties.PropertyAppSettings	EPiServer.Plugin.PluginDescriptor		Remove
EPIAncestor:Strict28	EPiServer.Core.ContentReference[]		Remove
EP:PropertyDefinition:Instance:54	EPiServer.DataAbstraction.PropertyDefinition	MetaTitle	Remove
EP:PropertyDefinition:Instance:14	EPiServer.DataAbstraction.PropertyDefinition	Image	Remove
EPIAncestor:ContentAssetAware104	System.Collections.Generic.List`1[EPiServer.Core.ContentReference]		Remove
EPIDsItem:94732819-266b-4635-a27b-79194f18e91e	EPiServer.Data.Cache.CacheItem		Remove
EP:PropertyDefinition:Instance:74	EPiServer.DataAbstraction.PropertyDefinition	HitImagesHeight	Remove
Total Found: 472			

 

- Search for a specific key.

Cache Buster

See all cache keys and give anyone a way to explicitly remove them.

Key Name

Key	Type	Value	Action
clientResourcePath	System.String	https://dl.episerver.net/13.0.5/	Remove
clientResourcePathValid	System.String	https://dl.episerver.net/13.0.5/	Remove
Total Found: 2			

- Remove a key individually by clicking on the Remove link.
